### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with K. Karan Reed on 3/15/07.

The application has been amended as follows:

Claim 1 (currently amended) A method comprising:

a) first subjecting an oxygen scavenger having a target scavenging rate to an initial dose of actinic radiation insufficient to trigger the oxygen scavenger; then

b) storing the oxygen scavenger of step a) in a container and removing the oxygen scavenger from the container prior to step c); and

c) subjecting the oxygen scavenger of step b) to a final dose of actinic radiation at a dosage, wherein the total energy of all doses is sufficient to trigger the oxygen scavenger.

In line 1 of each of claims 4, 5, 8, 10, 11, 12, 13 and 14, delete the number "3" and insert therefor the number -1--.

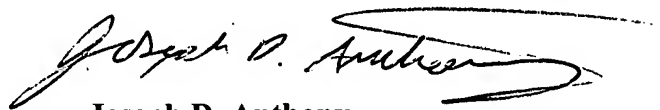

Claims 3 and 28-30 have been canceled.

2. The following is an examiner's statement of reasons for allowance: By the above examiner's amendment now canceled dependent claim 3 has been incorporated into independent claim 1. Applicant's independent claim 1, as amended above, is deemed to be clearly novel and unobvious over the prior-art of record since none of the prior-art references teach or suggest applicant's claimed method step b) in the claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
